

triple⁷ Aircraft & Metal Cleaner

A powerful bio-based cleaner and degreaser used for aircraft exteriors, components and soft metals.

- Removes heavy oil & grease deposits and protects the cleaning surface
- Extra solvency power without harsh chemicals
- Safe & easy to use, saving time & money
- Highly concentrated & environmentally responsible

Enhances workplace safety without compromising performance

triple 7 Aircraft & Metal Cleaner

triple 7 Aircraft & Metal Cleaner is a low to moderate sudsing, highly concentrated surfactant cleaner and degreaser that is used in the most difficult cleaning situations for the removal of all hydrocarbon soils including petroleum derivatives, fats, oils, greases, lipids, proteins and sugars.

Effective and Cost Saving

- Highly concentrated and removes heavy deposits
- Used for many applications and can be filtered & re-used
- Non tarnish and designed for soft metals including magnesium & aluminium
- Water miscible, temperature stable & long shelf life

Improves Performance

- Eliminates odours
- Enhances oil/water separation & improves system performance
- Releases soiling without reacting with the cleaning surface

Enhances Workplace Safety

- Non toxic, non hazardous & non corrosive
- Non reactive with other chemicals to minimise hazardous conditions
- No special storage & handling requirements
- Free of toxic cleaning fumes & Volatile Organic Compounds (VOC's)

Environmentally Responsible

- Readily biodegradable
- Free of hazardous air pollutants & ozone depleting chemicals
- Kind to nature's ecosystems
- Free of petroleums, glycol ethers, phosphates, lauryl sulphates, caustics, builders & reagents

Method of Application

triple 7 Aircraft & Metal Cleaner may be used in all types of machine applications; eg soak tanks, manufacturing process cleaning, pressure washers, steam cleaners, closed cabinets, ultrasonics and centrifugal machines.

The product is applied by spray, dip or any mechanical means, without creating hazardous conditions.

Uses: Aircraft cleaning, Vehicle maintenance, Manufacturing processes, transportation, garbage compactors, Marine.
