

## Technologically Advanced Electronic Control System

The Electronic Control System provides easy selection of variable shower temperature by simply turning the temperature control knob. Quality comes with the state-of-the-art built-in technology and is manufactured in accordance with the stringiest ISO 9001 Standards. RHEEM care for your needs and bring you our new ERA of technologically advance to provide you the most sensational showers.

## Safety

Safety comes with the latest technology built-in ELCB (Electric Leakage Circuit Breaker) and Non-ELCB models is manufactured in accordance to the stringiest ISO 9001 Standard. ELCB sensitivity is 15mAmp would automatically cut-off power supply in the event of current leakage & prevent electrocution.

## D.C SILENT PUMP

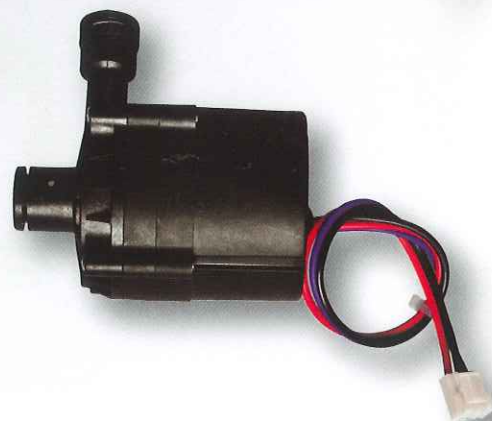

Silent and yet powerful. The built-in silent pump is available in this RH388EPi model. It comes with the latest advance technology 3-phase brushless DC motor for long lasting and superb performances. It generates high flow rate an consumes 50% lower electric power than the normal AC motor.

### Features

Thermal Cut-Off Anti-Scalding Feature  
Unlimited Capacity Hot Water Supply  
Hight Power Element is Available.

*i*-INVERTER  
Energy Saver

● EXCELLENT QUALITY

● SPORTY & STYLISH

● SHOWER IN SILENT

● Shower

● Long Bath

# RH388

## Features

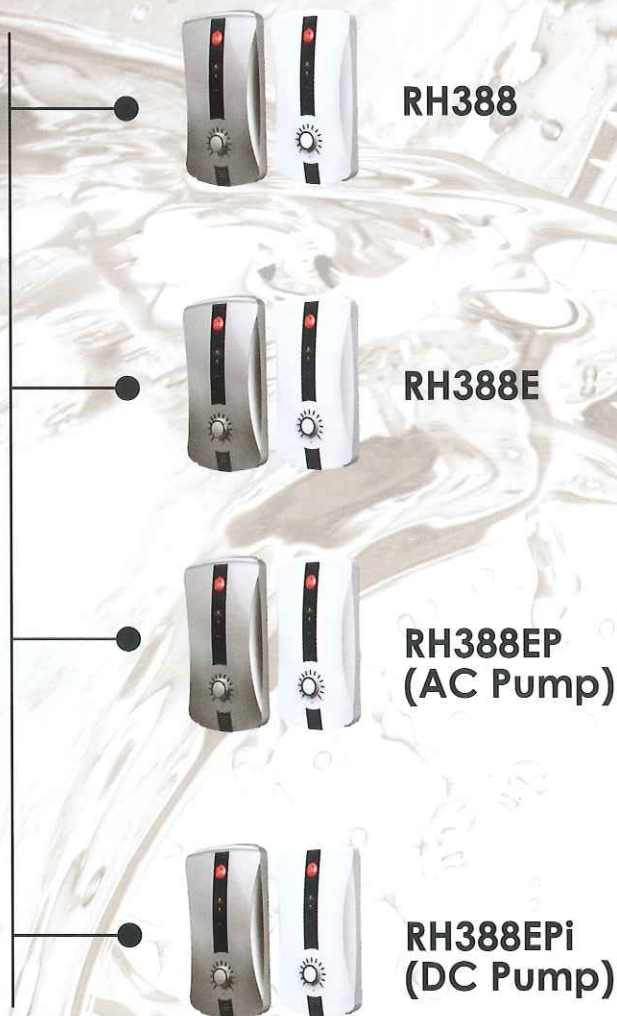

- 90° Regulated Stop Valve
- Electronic Temperature Control System
- Shower Pump (For Pump Model Only)
  - Flip-Start Flow Switch
  - Anti Scalding System
  - Triple Safety System
  - Electronic ELCB Safety
- 5 Spray Massage and Misty Handshower
  - Voltage Surge Protector
  - Splash Proof & Anti-Rust

## Warranty

- Internal Parts & AC Pump - 1 year
  - DC Pump - 5 years
- Heating Element - 5 years
- Anti-Leak Tank - 1 year

## Accreditation

- SIRIM/ST - Malaysia
- PSB/SPRING - Singapore
- TISI - Thailand
- ISO9001:2008 Certified Manufacturer

## SPECIFICATIONS

HEATER		PUMP
Heater Electrical Rating Available in 3.3kW to 5.5kW, 220V - 240V AC, 50 Hz	Minimum Water Flow Rate 2 litre/min	AC Pump Electrical Rating (Motor) 120W
Maximum Water Pressure 380kPa (55 PSI)	Water Temperature Control Electronic Control	Dc Pump Electrical Rating (Motor) 50W, 24V DC
Water Connection 15mm (1/2 BSP)	Dimension 215mm x 390mm x 76mm	
Weight 3.4Kgs (Non Pump) 4.3Kgs (AC) 4Kgs(DC)	Heater Light Color Top: Yellow Down: Green
