Cleaner, Safer, Greener

What is triple⁷ Saucepan Shine?

triple⁷ Saucepan Shine is the entirely sustainable dishwashing product that you have been looking for, designed for its effectiveness and safety to you and our environment.

triple⁷ Saucepan Shine is not a soap, detergent or petroleum solvent, but a unique plant-based formulation with a powerful micelle hyperactive cleaning action. **triple⁷ Saucepan Shine** can be safely used on your delicate china, crystal, glassware and cutlery without causing smearing or tarnishing. The product has the ability to penetrate and lift away fats, oils, greases, protein and sugars without damaging the cleaning surface.

triple⁷ Saucepan Shine is free of toxic and harmful ingredients including;

Caustics, Phosphates, Terpenes, Lauryl sulphates, Petroleum derivatives, Bleach, D-limonene and is non-carcinogenic.

Effective

Removes the toughest deposits, is water rinsable and is not affected by water hardness.

Good lathering

Good natural lathering without using toxic ingredients such as lauryl sulphates.

Gentle on your hands

Free of irritating and allergy-causing chemicals.

Keeps kitchen drains clean & odour free

Removes food odours associated with animal & vegetable fats/oils, greases, sugars & proteins.

No smearing & no streaking

Leaves glassware, crockery & cutlery shiny and streak free. Safe to use on your most delicate china and leaves no chemical residues.

Saves money

Highly concentrated and a little goes a long way.. saving you money.

Environmentally responsible

Readily bio-degradable and made from renewable resources. Has no detrimental effect on our environment.

Directions for use

triple⁷ Saucepan Shine is diluted at 1-2ml per litre of water in sink. The product may also be automatically dispensed at the desired ratio. Rinse with water if desired.

Leave oven racks to soak over night before scrubbing, followed by a thorough rinse with water. Use **triple⁷ Saucepan Shine** neat for scrubbing synthetic or wooden cutting boards and to remove burnt-on food residues.
