Elegance ladders

Elegance ladders

DESCRIPTION

These sleek, stylish ladders with handrails have been designed to make it easy to get into a pool. Made of AISI 316L stainless steel with two anchoring points, the first step is double the standard size in a non-slip material for the greater safety and convenience of swimmers. Comes with 3 or 4 steps. To connect ground earth cable use Equipotential Anchor items 73318 or 73319.

Komfi ladders

Komfi ladders

DESCRIPTION

Standard Ladder grey step

Ladder with handrails manufactured in Ø43 and polished AISI-316L stainless steel tube.

Polypropylene steps. Its plastic steps ensure a comfortable tread when the user steps on. It also avoids the possibility of slipping.

Material: Stainless Steel AISI 316L polished handrail + polypropylene steps

Dimensions: based on Standard ladders for Residential use.

Equipotential anchor

ASTRALPOOL

DESCRIPTION

The aim of this accessory for ladders is to solve the problem of not having the possibility to connect ground earth cable to ladders that do not have an anchoring on the pool beach like: Elegance and split ladders - items 45782, 45783, 01456, 01457, 01458, 01459, 08090, 08091 and 08092.

It is mandatory by norms to connect metallic ladders to ground earth in order to have proper electrical connections. Moreover, it is highly recommended to avoid corrosion.

Equipotential anchor for ladders, manufactured in AISI-304L stainless steel and commercialized for concrete and liner pools. The anchors are composed of a recessed base on the ground, washer, screws and the equipotential bonding.

Each ladder needs to 2 units.

	Code	Standard Pack	Standard weight in kg	Standard volume in m ³
Concrete pools	73318	1	0.45	0.002
Liner pools	73319	1	0.50	0.002

Chrome showers

Chrome solar shower

DESCRIPTION

With an elegant, streamlined design, the AstralPool Chrome Solar Shower stands out for its modern vintage style, in a wide range of colors and finishes so that you can choose the one that best fits in with your pool surroundings. Enjoy a relaxing experience before and after every swim thanks to its large 30 l tank to obtain hot water without consuming energy. This green solution for the daily use of your pool contributes to looking after the environment, as well as your health and that of others.

TECHNICAL SPECIFICATIONS:

- A 30 l hot water tank – The leading environmentally friendly system (sunlight heats the water) in the market.
- AISI-304-L Stainless Steel tube and Aluminum framework.
- Wide range of metallic finishes and colors.
- Anti-limescale shower head and rain effect.
- Hot and cold water mixer tap.
- Foot washer tap.
- Ease of maintenance: drainage for emptying the shower in winter to prevent damage and wear.
- Back inlet compatible with hose connection.

GENERAL NOTE FOR ALL MODELS

Made of PP stabilized against UV rays. The whole range comes in white. Ask your dealer about other colours.

Made up of tiles in modules for straight and curved sections (outer radius of 1 or 2 m), they click into place (male-female fitting), which gives certain leeway in assembling them, as well as absorbing their potential expansion due to the temperature changes to which they are exposed.

For all models of grating, a channel 5 mm wider than the grating must be built so that it easily fits into place and any potential expansion is prevented.

Channel width	Grating width
200.....	195
250.....	245
300.....	295
350.....	345

The height (h) of the grating varies depending on the model.

- Longitudinal model h = 24 mm
- Transversal model h = 22 mm and h = 35 mm

LONGITUDINAL MODEL

The longitudinal design of this model ensures that any excess water from the pool is not allowed to overflow onto the pool deck, thus maintaining it practically dry.

	Model	L	L1	h	A	⌢ r.1m.	⌢ r.2m.

Stainless steel longitudinal grating

ASTRALPOOL
DESCRIPTION

Longitudinal grating made of stainless steel. A channel 5 mm wider than the grating must be dug so that it is easy to fit.

It is made up of straight sections of AISI-316L stainless steel, 500 mm in length. Straight sections can be made to measure in order to fit the length of any pool.

There are 4 different models depending on the grating used. Height 35 mm.

POWERFALL WATER BLADES

A water feature with soothing qualities

Water features and massage jets are now valued for both their relaxing and their aesthetic qualities. Compatible with all types of pool, **PowerFall water falls enhance the swimming pool and provide calm and well-being.**

> A TOP-OF-THE-RANGE TOUCH TO CUSTOMISE THE POOL

- The Zodiac® PowerFall water fall is available in 4 widths to customise the pool, based on the size of the pool.
- **Simple to install when constructing the pool**, the water fall draws its supply directly from the return circuit from the filtration system and creates **a harmonious and soothing sound.**

DID YOU KNOW?

As the first water fall 100% made of ABS plastic, Zodiac® PowerFall stands out for its high quality and unalterable manufacturing (corrosion free). Thanks to its patented X-Baffle® internal structure (item #2), the water fall is always constant and homogeneous whatever water flow is. PowerFall lip is made of translucent plastic (item # 1). Thus, they harmonize perfectly with the design of the pool whatever the color of the pool surface.

X-Baffle® system

1 CV			16 m ³ /h	
1,5 CV			22 m ³ /h	
2 CV			30 m ³ /h	

INSTALLATION

Important: the water fall must not be installed at more than 1.2 m from the water level.

- 1 - Place a separate valve on each cascade. If the cascades are the same size and installed at the same height, construct a loop to balance water flow to all units.

- 2 - Prepare the notch where the water fall will be installed: For PowerFall cascades, make a notch in the bond beam about 11 cm deep and 2.5 cm longer than the cascade.
- 3 - Water fall placement: Create a bed of mortar in the notch to reinforce the base. Place the water fall in the mortar and ensure it is level.

EQUIPOTENTIAL ANCHOR

The aim of this accessory for ladders is to solve the problem of not having the possibility to connect ground earth cable to ladders that do not have an anchoring on the pool beach.

It is mandatory by norms to connect metallic ladders to ground earth in order to have proper electrical connections. Moreover, it is highly recommended to avoid corrosion.

Equipotential anchor for ladders, manufactured in AISI-304L stainless steel and commercialized for concrete and liner pools. The anchors are composed of a recessed base on the ground, washer, screws and the equipotential bonding.

Each ladder needs to 2 units.

PAL II PORTABLE CHAIRS

for disabled

- Portable chair for disabled.
- No assembly required in pool deck area.
- The rechargeable 24V battery powers a mechanical actuator, ensuring that the chair is already ready for use. 30-Cycle duration once charged.
- The perfect solution for facilities with multiple pools as it can be set up anywhere along the pool deck and put away when not in use.
- Waterproof remote control.
- Easy to use, even for the end user. Just roll the chair to the edge of the pool, lock the wheels, set the stabilizers, and it is ready to use.
- Structure made of waterproof materials to prevent corrosion.
- Armrest and footrest included.
- The Pal makes any pool accessible in seconds. It is truly the easiest way to get everyone into the water.

	Code	Standard Pack	Standard weight in kg	Standard volume in m ³
PAL II chair. Counterweight in cement blocks.	69444	1	-	-

* Ask your AstralPool distributor about infinity pools, spas and other non-standard models.

SPLASH SEMI-PORTABLE

pool hoisting system for disabled people

- Semi-portable chair installed on the pool deck for disabled people.
- Includes a cart to carry the chair in order to install it in different locations.
- Installation requires a ground anchor. Its 24 V rechargeable battery supplies power to a metallic actuator, ensuring that the device is always ready for use.
- Duration of 30 cycles once loaded.
- Waterproof remote control.
- The Splash is equipped with a water resistant structure to prevent corrosion and it has armrests and a footrest.
- Its load capacity of 136 kg and its 359° swivel makes it one of the most practical solutions for disabled access to the pool.

SENTRY® lifeguard chair

SR Smith

NEW
2023

- Sentry™ series constructed from CNC cut HDPE for strength and low maintenance.
- 3 Seat Height options 76 cm, 107 cm, 168 cm.
- 76 cm chair comes with brackets for anchoring to pool deck.
- 107 cm & 168 cm chairs are pre-drilled for concrete anchors.
- 168 cm chair available with additional center support for high wind environments.
- Marine grade, 316 stainless steel hardware.
- Textured treads for slip resistant surface.
- Features integrated cup holder, life hook and sun umbrella holder.
- Optional wheels for ease of movement.
- Designed to meet the logistical and safety needs of facilities from small hotel pools to large aquatic facilities.

Accessories & Replacement Parts:

- 13-501 30" chair anchor brackets (included)
- 13-502 30" wheel kit
- 13-503 42" & 66" wheel kit

READY FOR FUN?

It is a game whose main feature is the surprise factor. Children do not know when the cube is filled and overturn on them all the water it contains. It is specially designed for older children or young people.

WAVE SPLASH BUCKET

Designed and manufactured according to the standards EN-1176. It has nozzles embedded and rotating parts that avoid grips and entrapments in order to ensure maximum safety.

Used materials:

- Aisi-304L stainless steel painted with powder coating of polyester, matt finish and treaty against the heat.
- Drive nozzles made of synthetic polymer POM.
- AISI-304L stainless steel hardware vandal-proof.
- Feet protection to prevent children from damage.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Wave Splash bucket	IS-30A47	1	-	-

How is it installed ?

It is necessary to soak it into the concrete anchor and connect it to a water intake.

TECHNICAL FEATURES

Code	IS-30A47
Measurements	195 X 140 X 455 cm
Age range	4 - 15 years
Users	8 users
Water outlets	1 unit
Pool depth	From 0 to 35 cm
Pressure	105 Pa
Water flow	200 lpm

WATER GAMES AND ORNAMENTAL WATER FEATURES

ASTRALPOOL BIKE

ASTRALPOOL BIKE

Aquabike made of square and rectangular polished AISI-316L stainless steel pipe. Ideal for gyms, wellness centres, spas, medical facilities, hotels and private pools.

- Made of AISI-316L stainless steel.
- Adjustable height of saddle and handlebar.
- For use in public and residential pools from 1 to 1.5 metres in depth.
- Ergonomic.
- Pedals made of PUR.
- Easy to move about.

	Code	Standard Pack	Standard weight in kg	Standard volume in m ³
AstralPool Bike	67333	1	20	0.12

GRILLES FOR OVERFLOW

GENERAL NOTE FOR ALL MODELS

Made of PP stabilized against UV rays. The whole range comes in white. Ask your dealer about other colours.

Made up of tiles in modules for straight and curved sections (outer radius of 1 or 2 m), they click into place (male-female fitting), which gives certain leeway in assembling them, as well as absorbing their potential expansion due to the temperature changes to which they are exposed.

For all models of grating, a channel 5 mm wider than the grating must be built so that it easily fits into place and any potential expansion is prevented.

Channel width Grating width

200.....	195
250.....	245
300.....	295
350.....	345

The height (h) of the grating varies depending on the model.

- Longitudinal model h = 24 mm
- Transversal model h = 22 mm and h = 35 mm

LONGITUDINAL MODEL

The longitudinal design of this model ensures that any excess water from the pool is not allowed to overflow onto the pool deck, thus maintaining it practically dry.

	Model	L	L1	h	A	↗ r.1m.	↗ r.2m.

STAINLESS STEEL longitudinal grating

Longitudinal grating made of stainless steel. A channel 5 mm wider than the grating must be dug so that it is easy to fit.

It is made up of straight sections of AISI-316L stainless steel, 500 mm in length. Straight sections can be made to measure in order to fit the length of any pool.

There are 4 different models depending on the grating used. Height 35 mm.

Complies with Standard EN 13451-1:3

Complies with Standards EN 16582-1 EN 16713-2
